

Hatch Hill Road

Construction Update

Construction will resume on Hatch Hill Road on Monday, July 16, 2012. The contractor will be working mostly between Bolton Road and Brandy Hill Road. There will also be some minor work performed along the rest of the roadway. During that week, the road will be open to alternating traffic, but some minor delays can be expected. During the reclaiming and paving phases (Approx. from July 23 to August 4), there will be a detour in effect. Thank you for your patience.
