From the office of the Fire Marshal

Fire Marshal's Monthly Report June 2010

Upcoming construction projects:

Reminder, the RHS roof repair/replacement project will be ongoing on a full time basis as soon as the school closes. Only the main office, custodial staff, and contractors will be occupying the school during the summer.

Ongoing Projects:

The RGH inspections for 2010 have started the schedule is not as structured as the 2009 cycle however the schedule will be made available as it develops.

Other Activities:

The final staff planning meeting for the 2010 fireworks will be June 23rd at either the VPD Community Room or Sta 641.

The Building Official, Pete Hobbs, has returned to work after an absence for medical reasons.

The student intern (Steve Snell) from the University of New Haven has arrived. He will be working on variety of projects and will generally be working on Thursdays and Fridays.

The Knox Box conversion will begin soon; all the supplies have been received or are being shipped to us.

Other Information:

I will be working with TN to provide an improved and more thorough line of communication. Unfortunately several fire calls over the past Memorial Day weekend resulted in TN simply leaving a message on my home phone and with no further attempt to reach me. Since 2008 TN has been provided with several means of contacting me and a protocol to follow to call for the FMO.
