

Hello Shaun,

Please express my gratitude for Mayor Apel and Mr. Wards ongoing support for this project.

Everyone at the town of Vernon has been a pleasure to work with and have repeatedly exhibited an overwhelming spirit of support, creativity, and helpfulness for this project.

The entire town management team, the town council, the police and fire Marshall, zoning and building officials, the entire group that meets at your office on Wednesdays has been part of the solution, and that is refreshing when there are so many obstacles to deal with to resurrect 200 West Main!

Thank you and have a great day!

Sincerely,

Ken
