

PRESS RELEASE

April 13, 2010

Public Works to Deliver Mulch

The Vernon Department of Public Works is happy to announce a new program for Vernon residents. Beginning this April residents can call Public Works to have landscape mulch delivered to their residence. Landscaping mulch processed from trees and brush at the Vernon Transfer Station can be delivered for a fee of \$60.00 for one 4 cubic yard load. Mulch will be delivered **onto driveways only** at a location that has been clearly marked by the resident.

Interested parties should call Vernon DPW at 860-870-3500 to schedule a delivery. All payments will need to be received prior to delivery to insure a spot on the schedule. Residents will also be required to sign a hold harmless agreement releasing liability. Mulch will continue to be made available free of charge for self loading during business hours at the transfer station.

Visit our website at **vernon-ct.gov**.
