PRESS ADVISORY:

Mayor McCoy Update on Snow Removal from School Rooftops

Vernon, Conn., -- Mayor Jason L. McCoy released the following statement in regards to the school snow removal progress:

"We have made significant progress in the removal of snow and ice from the rooftops of the school buildings. Local crews from the Water, Sewer, Parks and Recreation, Public Works, Vernon Volunteer Fire Department and Schools have been working side-by-side with Connecticut National Guard members, and have successfully completed the clearing of Skinner Road School and are close to completing Center Road School. Crews will then move their efforts to Rockville High School. We will continue to monitor the snow loads as removal progresses as we are work as quickly, efficiently and safely as possible. I would like to thank the public for their patience and understanding."
