

PRESS RELEASE

June 21, 2010

BATTERY, WASTE OIL AND ANTI FREEZE DISPOSAL

The Vernon Transfer Station allows residents free drop-off of lead acid batteries, waste motor oil and used anti freeze year round during normal business hours. A punch card and permit are not required for entry providing these items are brought in exclusively. Please bring oil and anti freeze in a container that has a screw top and does not need to be returned (such as a laundry soap container).

Don't forget to take home some **free mulch** when you visit us.

For a complete list of disposal options and services provided check out our website at **www.vernon-ct.gov**.

Jason L. McCoy, Mayor
