## **Q& A's relative to Contract 1029-09/27/2013 Office Equipment & Related Services**

### **Question No. 1 – From Jerry**

I was wondering if you were going to provide a list of current devices being used now and average monthly copy/print volumes? Thank you.

### **Answer to Question No. 1**

It is part of their assignment to tell us what we have networked. We are working on an inventory of the non-networked items.

### **Question No. 2 – From Ann**

Is a list (fleet inventory) going to be handed out on Thursday or is that the main purpose of the Walk Thru?

### **Answer to Question No. 2**

Yes, a list of non-networked devices will be handed out on Thursday.
