

CONTRACT #RFP 1046 - 12/20/13

Questions and Answers

**Hewlett Packard Network Equipment, Switches, Peripherals, and
Related Services for the Town of Vernon**

<u>QUESTION</u>	<u>ANSWER</u>
1. Is this a onetime purchase or a term contract?	This is a onetime purchase.
2. Do you want HP Support Care Packs quoted? HP Care Packs have part numbers. I do not see any listed on the RFP.	No additional care packs are needed.
3. Will you want the vendor to configure the equipment prior to shipping?	No configuration is needed prior to shipping.
4. Do you need any onsite services provided, such as installation and training?	This is a project that will last several months and we will install and configure. This, however, is not saying we will not need some services. After speaking with HP vendors we have been informed that in the past HP has provided monies toward services for configuration with a large purchase.
5. Under Vendor qualifications it does not require vendor's to be HP partners. May vendors proceed without being an HP partner?	Yes.
