NOTIFICATION OF AQUATIC TREATMENT
LOWER BOLTON LAKE - BOLTON/VERNON

In accordance with CT DEEP, Pesticide Division notification requirements, Lower Bolton Lake in Vernon/Bolton will be chemically treated with the USEPA / CT DEEP registered herbicide Sonar Genesis® (fluridone) for control of nuisance aquatic vegetation on Monday, May 20th. Prior to treatment, the lake shoreline will be posted with signs showing water use restrictions in effect in accordance with DEEP requirements. The entire lake will be closed to all water uses (including swimming, boating and fishing) on the day of treatment only. Additionally, use of the lake water for irrigation is restricted for 90-days (or until August 20th), commencing on the day of treatment. Additional follow-up treatments will be conducted as needed through June and July. More information regarding this treatment may be obtained from the person named below. The chemical application is being conducted by the State licensed firm, Aquatic Control Technology of 11 John Rd., Sutton, MA 01590, Tel. (508) 865-1000; contact Dominic Meringolo.
